

## Beauty of the Night

*The sun shines on the evening dew*

*Beg the light not to leave*

*For the light of the moon glew*

*Only to you does my heart cleave*

*With the the sweet night bird coo*

*To the dark knight blanket they weave*

*A sound that can only be heard by you*

*Faith and hope my dark heart believe*

*Darker yet darker with a purple hue*

*Only the soft glow of stars could be naive*

*Shining down on through*

*The light that you receive*

*For the light of the moon glew*

*The sweetness of the light on your sleeve*

*That the light of day you'll receive*
