

On the Edge of the Sea

She dances on the
beach with sandy feet. Water
washes it away.

The sand seems to be
more persistent than you'd think.
Water makes it stay.

With her feet buried
in sand again, she goes back
to rinse them once more.

Forgetting what she
learned, she decides to walk back.
Wet feet on dry shore.

Instead of going
back to the sea, she decides
to let the sand be.
